

Chemins

Deux niveaux pour cet exercice.

Proposer l'activité avec d'autres modèles sur grand format en collectif pour donner une technique qui facilitera l'activité :

- on démarre toujours du lapin ou du mouton
- on indique dans quel sens on doit aller
- on compte le nombre de ronds qu'on doit traverser
- on s'arrête dans le rond
- et on redémarre toujours à l'endroit où on vient de s'arrêter (pour faciliter on peut faire marquer la fin du tracé par un point)

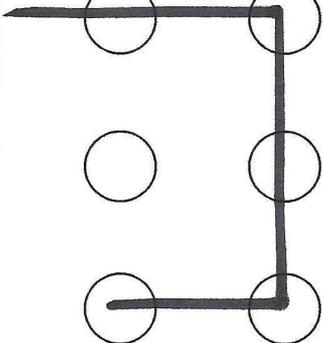

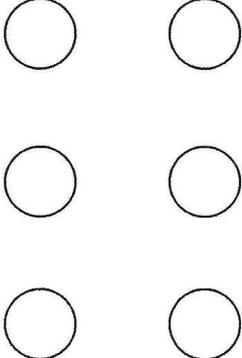

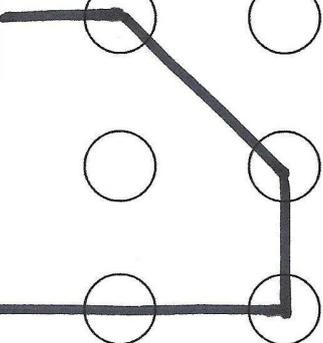

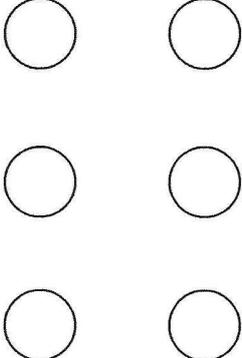

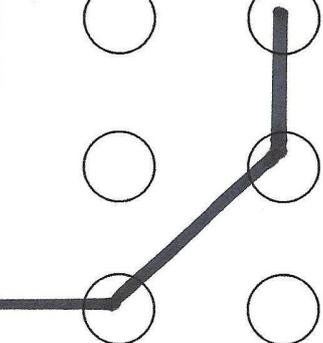

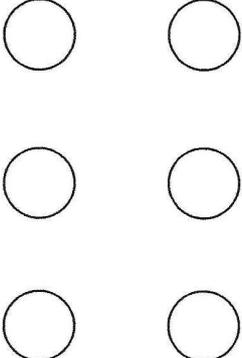

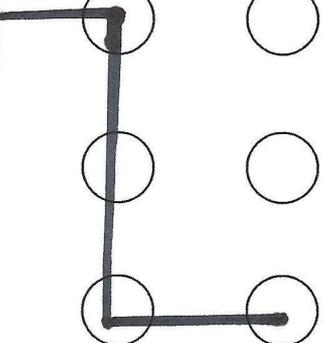

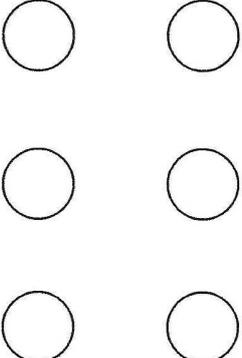

Commencer par la version la plus simple et complexifier pour les enfants qui ont bien compris.

A la fin du document, j'ai mis les deux modèles vierges pour vous permettre de construire d'autres fiches.
